It takes a very special set of skills to screw up a HOG.. waste of money. Meh. It's part one of ?...or at least...I think it is....it doesn't have any ending. It just stops.. This game is a pretty terrible HOG. Mainly due to tacky graphics, poor voice overs and some non responsive lags. I have to end up using the solve button for puzzles as they offer no hint buttons. I am a avid HOG player and this one is a big miss in my book.
